<i>Understanding LCAR-Related Processes for the MCE</i>	
What role will the MCE play in LCAR Services after the Phase I implementation is complete?	The MCE will play a critical role in Phase I changes to the Level of Care submissions process. This transition will add an MCE role so that Level of Care (LOC) assessments can be completed by the MCE for anyone in the PathWays Waiver.

QUESTIONS	ANSWERS
<p>How can I learn more about next steps and available resources for Phase I of the LCAR Services implementation?</p>	<p>To learn more about the Phase I implementation of LCAR Services in the State of Indiana, check on the LCAR Services tools and resources page for transition and webinar announcements, as well as training materials at: http://www.maximusclinicalservices.com/svcs/indiana_lcar.</p> <p>You can also contact the LCAR Services Help Desk team: Phone: 833.597.2777 Email: INLCAR@maximus.com</p>
<p>What does PASRR require?</p>	<p>The PASRR process requires that all applicants to Medicaid-certified nursing facilities be given a preadmission, preliminary, assessment to determine whether they might have Serious Mental Illness (SMI) or an Intellectual Disability (ID) or Developmental Disability (DD). This is called a "Level I Screen." Individuals with indicators of SMI/ID/DD receive a clinical review to determine if an in-depth evaluation called "Level II" is needed prior to nursing facility (NF) admission. The results of this evaluation also determine the appropriateness of a NF setting and if specialized services are needed relative to the PASRR condition.</p> <p>Regulations governing PASRR are found in the Code of Federal Regulations, at 42 CFR 483.100-138.</p>
<p>What is the purpose of the Level I Screen?</p>	<p>The purpose of a Level I Screen, also known as an identification screen, is to look at an individual's clinical characteristics to establish whether or not they may have a known or suspected PASRR condition. A PASRR condition includes a diagnosis of a Serious Mental Health (SMI) condition and/or an Intellectual and/or Developmental Disability (ID/DD).</p> <p>If a person has a known or suspected PASRR condition, they will receive a comprehensive Level II assessment to determine if their condition qualifies under the PASRR program, the appropriateness of a NF setting for the person, and any services they may need while in the NF.</p>
<p>When is a Level of Care (LOC) review required?</p>	<p>This answer is in two parts: Applicant and Resident.</p> <p>Applicant: A LOC review is required for Medicaid recipients seeking admission to a Medicaid Certified NF and Medicaid will be the pay source. Everyone receiving a MI/ID Level II, regardless of their pay source.</p> <p>Resident: A LOC is required: 1. If the person admitted under Medicare or Private Pay and is converting to Medicaid active and Medicaid will be the primary pay source; 2. If the person has an expiring time-limited stay on an LOC screen and requires continued nursing facility stay; and/or 3. If there is a significant change in status from a previously identified LOC screen. 4. If the resident is a PathWays member, an annual LOC review will be required.</p>
<p>When is a combination ("Combo"), Level I and LOC review required?</p>	<p>A combination Level I and LOC review is required when:</p> <ul style="list-style-type: none"> • Medicaid pay source admitting to a Medicaid-certified NF • MI, ID/DD/RC, or dual Level II referral will be made
