BEST PRACTICES: Assessment Tips & Reminders

1

You must enter all nursing facility admissions, discharges, and transfers in Pathtracker. **Admissions must be entered within one day of admission** - this is extremely important information for LDH in order for them to meet the requirements in the DOJ Agreement. **LDH is required to initiate contact with identified individuals within 3 days of admission into a nursing facility.**

You may reference these **PathTracker Admission instructions** if you have questions about how to complete this process:

2

Per the attestation below, submitters are required to call in a LOCET and review all demographic data to ensure accuracy **and** matches what's listed in the LOCET **before** submitting a Level I.

When submitting a Level I, submitters MUST check the attestation that states the following: *"I understand that I am signing this application under penalty of perjury, which means I've provided true answers to all the questions on this form to the best of my knowledge. I know that I may be subject to penalties under federal and/or state law if I provide false or untrue information. By submitting this Level I screen I am also attesting that the LOCET has been completed."*
