

# Your interview with a Maximus Assessor

## What you have to say is important!

In your interview, the Maximus Assessor will ask you questions. We want to know how you're doing and what you need.

We want to learn:

- What you're good at and enjoy
- What you need help with
- What you're working to improve
- What you think might help you if you move

## Who are the Assessors?

The Assessors work for Maximus. They talk with children and youth. The interview is just a one-time conversation. Your Assessor isn't a new Caseworker. They don't know your Caseworker. They interview your Caseworker, too. They also talk to important people in your life.

## Why do we interview you?

We do an interview if you might be moving to a new place. This helps us know your current needs, strengths, and what place might help you best succeed. While we do not decide the specific place, this interview will help your Caseworker and team find the right place for you. We'll also create new goals to work towards based on things we learn from talking with you. We will make sure to include your talents, interests, and where you want to live.

Maximus thanks you for talking with us!

## Who is Maximus?

Maximus is a company that works with federal and state agencies. We help them improve their programs. We do assessments and other things that help people get health care.
