To be completed by a knowledgeable caregiver. Note: this form and its instructions are entirely based upon the MS Division of Medicaid (PAS) Application for Long Term Care. Refer to instructions from the PAS for any areas requiring clarification.

Points	Weight	Points X Weight	Max Points	CRITERIA
				ADL/IADL: SCALE: (0 POINTS) INDEPENDENT: independently completes activity safely; (1 POINT) SUPERVISION: Completes activity safely with cueing, set-up or standby assist or limited occasional physical hands-on assistance; (2 POINTS) PHYSICAL ASSISTANCE: Can participate but requires physical/hands on assistance to complete safely; (3 POINTS) TOTAL DEPENDENCY: Completely dependent on others to complete activity safely.
	7.0		21.0	1. Mobility/Ambulation: How well can the individual purposefully move within his/her residence/living environment?
	.5		1.5	 Community Mobility: How well can the individual move around neighborhood or community? This includes accessing buildings, stores, restaurants and using (including enter/exit) any mode of transportation (such as walking, wheelchair, cars, buses, taxis, etc.).
	7		21.0	3. Transferring: How much human assistance is needed on a consistent basis for safe transfer, including bed/chair to wheelchair, walker or standing; onto and off toilet; into and out of bath/shower?
	5.0		15.0	4. Eating: How well is the individual able to eat/drink safely, including chew and swallow? If tube or IV fed, circle 0 if individual can feed self independently, or circle 1, 2, or 3 if another person is required to assist. <u>Excludes meal prep.</u>
	1.0		3.0	5. Meal Prep: How well is the individual able to safely obtain and prepare routine meals? (Includes ability to independently open containers & use appliances). If tube or IV fed, circle 0 if individual can prep tube/IV feeding independently, or circle 1,2, or 3 if another person is required to assist
	5.0		15.0	6. Toileting: How well can the individual use toilet, commode, bedpan or urinal safely? This includes flushing, cleansing of self, changing of protective garment, adjusting clothing, washing hands, managing an ostomy or catheter. Excludes transfer and continence (Note – limited hands-on assistance includes emptying bedpans.)
	5.0		15.0	7. Bathing: How well is the individual able to bathe, shower or take sponge baths safely for the purpose of maintaining adequate hygiene and skin integrity? Includes washing hair. <u>Excludes transfer</u> (Note – limited hands-on assistance includes helping with hard to reach areas, such as the back.)
	5.0		15.0	8. Dressing: How well is the individual able to safely dress and undress as necessary, regardless of clothing type? This includes ability to put on prostheses, braces, anti-embolism hose and choice of appropriate clothes for the weather and for personal comfort. Difficulties with a zipper or buttons at the back of a dress or blouse do not constitute a functional deficit. (Note: if individual can dress independently, but normally requires 30 minutes or longer doing so, score as "Supervisory" (1).)
	5.0		15.0	 Personal Hygiene: How well is the individual able to perform personal hygiene/grooming activities safely, including but not limited to combing hair, shaving, oral care? Exclude nail care and washing hair.
	5.0		15.0	10. Med Management: How well is the individual able to safely manage and administer pills, liquids, inhalers, nebulizers, eye drops, ear drops, self-administered injectables, IV medications, medication pumps? <u>Excludes insulin and monthly injections</u> , such as B-12 shots.
				11. Does the individual use insulin? How well is the individual able to safely manage and administer insulin? If individual does not use insulin, select N/A for all items. Consider the past 30 days. Score based on functionality achieved with assistive device(s), if used. \[\Bar{N} \Bar{Y} \] (if yes, answer 11 a-c; if no, proceed to 12)
	Capp ed .5		1.0	 11a. Can individual administer finger sticks and understand Accu-Chek® (glucose testing) results? ☐N (1 point) ☐ Y (0 points) ☐ N/A 11b. If on a fixed dose, can individual self-inject insulin with a pre-filled syringe? ☐N (1 point) ☐ Y (0 points) ☐ N/A 11c. If on a sliding scale, can individual draw up the correct amount and inject insulin? ☐N (1 point) ☐ Y (0 points) ☐ N/A
				CONTINENCE: (CONSIDER THE PAST 30 DAYS; SCORE BASED ON FUNCTIONALITY ACHIEVED WITH ASSISTIVE DEVICES, IF USED. INCLUDES CATHETER AND OSTOMY) SCALE: (0 POINTS) COMPLETE VOLUNTARY CONTROL; (1 POINT) INCONTINENT EPISODES LESS THAN WEEKLY; (2 POINTS) INCONTINENT EPISODES ONCE PER WEEK; (3 POINTS) INCONTINENT EPISODES TWO OR MORE TIMES PER WEEK
	5.0		15.0	12. BLADDER CONTINENCE – How well is the individual able to voluntarily control the discharge of body waste from the bladder?
	5.0		15.0	13. BOWEL CONTINENCE –How well is the individual able to voluntarily control the discharge of body waste from the bowel?
	Capp ed 1.0		10.0	14. UNDERLYING CAUSES OF ADL/IADL LIMITATIONS – Check all Physical Impairments and Supervision Needs that apply below. (Each option results in one point; maximum = 10) # selected:
