<p><i>AssessmentPro – General System Use Questions</i></p>	
<p>What is the credentialing required in order to fill out and submit PASRR?</p>	<p>The preference is that the submitter is someone who knows the individual best. A non-clinical person can enter some of the information – i.e., demographics. However, someone with the proper degree/accreditations would be needed for final submission.</p>
<p>Can multiple staff work on the submission?</p>	<p>Yes, multiple people can work on a PASRR draft to prepare it for submission. On the provider’s landing page in AssessmentPro, there is a tab for Draft screens. Within that tab, there will be two sub-tabs: My Screens and Facility Screens. If the provider opens the Facility Screens sub tab, they will be able to access the draft screens within their facility. Once they open a draft screen, they can complete and submit it to Maximus.</p>
<p>What happens if you make a mistake in AssessmentPro on a PASRR submission – or accidentally leave out important information?</p>	<p>Nothing punitive will occur if mistakes are made on the PASRR submission. If you realize error(s) have been made, you can reach out to the Clinical Reviewer, if needed. However, if the omission is something that would cause a Status Change, a new PASRR submission would be required.</p>
<p>For each new PASRR submitted, will the system default to the current facility so that we do not have to update it each time?</p>	<p>Yes, AssessmentPro will default to your facility. However, if you represent multiple facilities, you should always check that the correct facility is selected.</p>
<p>My facility is not located in Illinois. Should I indicate my facility’s own state in the State dropdown in setting up my user account or should I select Illinois instead?</p>	<p>Even if your facility is another state, you will still need to select Illinois from the State dropdown when setting up your AssessmentPro user account.</p>
<p>If the individual is at another facility with nowhere to go, can the submitter enter the current address and the Social Worker’s contact information?</p>	<p>There is an option to choose in cases where the individual’s address is unknown.</p>
<p>In the Payment Source section, if the individual is listed as a short-term respite stay covered under their hospice benefit, what should the submitter select as payment source (since there is no hospice payment</p>	<p>The submitter would select the Private Pay option.</p>

QUESTIONS	ANSWERS
source option)?	
Some individuals will not give out their Social Security Number (SSN). Is there a workaround for these situations?	Currently, submitters are required to provide the person's SSN. Medicare will need it to provide payment for the individual's care. Sometimes this number may already be on file in the system so be sure to check.
If the hospital does not know which NF a patient is discharging to, is there another way to get the PASRR determination to the NF?	You can print the outcome and send it to the nursing facility that is chosen. The NF should read and review the PASRR before accepting the person to make sure they can meet their needs there (if this is a full Level II)
