

Below is a helpful list of common terms and definitions related to New Hampshire’s independent Comprehensive Assessment for Treatment (CAT) service program, which is managed by Maximus Clinical Services. Be sure to check back for periodic updates to this glossary as new terms are added.

TERM	DEFINITION
<b>Family First Prevention Services Act (FFPSA)</b>	The Family First Prevention Services Act (FFPSA) was signed into law as part of Public Law (P.L.) 115–123 and has several provisions to enhance support services for families to help children remain at home, reduce the unnecessary use of congregate care, and build the capacity of communities to support children and families.
<b>Comprehensive Assessment for Treatment (CAT)</b>	The assessment process by which a child, youth or young adult’s need for residential or other treatment is assessed and to determine whether the child or youth utilizing residential treatment have a clinical need for this intensive service.
<b>Child and Adolescent Strengths and Needs Tool (CANS)</b>	A tool practitioners utilize to identify each child and family’s strengths and needs. DHHS determined this tool to be the standardized assessment tool for the children’s behavioral health system, per RSA 135-F.
<b>Psychiatric Residential Treatment Facility (PRTF)</b>	An inpatient level of care provided in a residential facility rather than a hospital. PRTFs provide active treatment to children and youth under age 21 with complex mental health conditions. PRTFs deliver services under the direction of a physician, seven days per week, to residents and their families, which may include individual, family and group therapy.
